Our staff's ability and commitment to finding these solutions is what distinguishes us. We provide consistent personal and individual attention to all our clients.

SERVICES

As a full-service construction company, FICUS CONSTRUCTION essentially assists clients from the very outset to the completion of their project. We become partners with our clients in understanding the five basic functions of:

- Defining and establishing the scope of the construction project.
- Pre-construction project planning including preparation and scheduling of the projects, phasing plans, budgeting/cost-modeling, subcontractor qualification etc.
- On-site execution of the project includes scheduling, surveying, quality control, safety management, subcontractor management, status reporting and change management.
- Monitoring and controlling the project.
- Closing of the project related to the post construction activities.

SAFETY

FICUS CONSTRUCTION has always understood the critical importance of safety and recognizes that an organization culture must start from the top. We constantly work to make safety our first priority so we employ an independent professional safety consultant to provide training and education. The Safety Consultant conducts regular jobsite inspections and safety audits to ensure compliance at all levels of the organization.
